Andrea *Bonacci*

DATA ANALYST — AI ENGINEER

PROFILE

Data Analyst and AI Engineer with over 4 years of experience *in data-driven consulting for enterprise clients. End-to-end analytics pipelines, BI dashboards and NLP models — from ETL to production deployment with FastAPI and Docker. Current focus on* AI Engineering*: AI agents, agentic workflows with MCP, tool use and LLM integration in production.* Academic tutor *for university interns and responsible for* technical interviews *to hire Data Scientists and AI Engineers. I also delivered an intensive* 8-hour university course *on AI applied to coding.*

PROFESSIONAL EXPERIENCE

LINKALAB S.R.L. · CAGLIARI — part of Lynx Group since 2025 — Nov 2021 → present

Consulting company – Internal growth

Data Analyst & AI Engineer — Oct 2025 → present

AI Engineering focus: AI agents and agentic workflows with MCP, tool use, sub-agents and LLM integration (OpenAI, Anthropic). Claude Code, Windsurf and Gemini CLI in production. Academic tutor for university interns. Technical interviews for hiring Data Scientists and AI Engineers post-acquisition.

AI Agents · MCP · LLM Integration · Tool Use · Claude Code · Academic Tutor · Technical Hiring

Data Analyst & Data Scientist — Jul 2022 → Oct 2025

End-to-end data pipelines and BI dashboards (Power BI, QuickSight, Tableau, Looker Studio) for enterprise clients. NLP, sentiment analysis, time series. Deployment with FastAPI and Docker on AWS.

Python · SQL · Power BI · QuickSight · Tableau · NLP · FastAPI · Docker · AWS S3/Athena

Data Scientist — contract — Apr 2022 → Jun 2022

Post-internship hire. First autonomous data analysis and modeling projects for enterprise clients.

Data Scientist — curricular internship — Nov 2021 → Mar 2022

Master's thesis internship. Development of an Italian Emotion Analysis system for online reputation monitoring.

Speaker — University Course — April 2026

UNIVERSITY OF CAGLIARI

Design and delivery of two intensive sessions (**8 hours total**) on *"Artificial Intelligence Applied to Coding"*. LLM architecture, advanced prompt engineering, agentic coding with CLI tools, Model Context Protocol (MCP) integration and custom Skills creation for AI agents. Hands-on workshops where students built their first AI-assisted development workflows.

AI for Coding · Prompt Engineering · LLM · MCP · University Lecture

AT A GLANCE

4+ years of professional experience

16+ open source projects

DIFFERENTIATORS

AI + BUSINESS
Business degree + Data Science master's = I build AI that solves real problems, from idea to deployment.

AI ENGINEERING
Advanced use of LLMs, AI agents and MCP to build intelligent workflows and automate complex tasks.

UNIVERSITY SPEAKER
AI applied to coding course, University of Cagliari, April 2026 — 8 hours.

MENTORING & HIRING
Academic tutor for university interns. Leading technical interviews for post-acquisition team expansion.

SKILLS

AI & LLM
AI Agents · MCP · Prompt Eng. · OpenAI API · Anthropic API · Tool Use · Sub-agents · Hugging Face · Ollama · LLM Eval · Agentic Coding Config

DATA SCIENCE
Python · SQL · NLP · Sentiment Analysis · Pandas · Time Series · Computer Vision

BUSINESS INTELLIGENCE
Power BI · QuickSight · Tableau · Looker Studio

MLOPS & CLOUD
Docker · FastAPI · AWS S3 · Athena · Flask · GitHub

PERSONAL PROJECTS & OPEN SOURCE

GITHUB.COM/ANDREABONN · 17 PUBLIC REPOSITORIES

AI & Automation

Ongoing

AI PR Reviewer on GitHub Marketplace: multi-provider AI code review with fallback and key rotation. Video anonymization with YOLO/CV, Chrome extension for LLM-powered article/PDF summaries, multilingual TTS.

`Python` `GitHub Actions` `GitHub Marketplace` `YOLO` `Computer Vision` `LLM API` `Chrome Extension`

AI-Powered Web Apps

Ongoing

BetTracker — sports betting tracker with screenshot OCR, automatic result resolution, AI chat and advanced statistics. PWA with offline, OAuth and cloud sync.

`React` `TypeScript` `Gemini AI` `Firebase` `PWA` `Tailwind CSS`

Full-Stack Web Apps

Ongoing

PWAs with cloud sync and offline: finance, health, shared expenses. End-to-end ownership.

`JavaScript` `PWA` `Cloud Sync` `Responsive UI`

Developer Tools & CLI

Ongoing

Claude Code Tools Explorer — TUI for config inspection (Textual/Rich). Command Quiver — desktop prompt & shell manager (GTK4, SQLite). Telegram bot for remote multi-PC shell (zero infrastructure, heartbeat, audit log, systemd), file manager extensions, clipboard image CLI, audio renaming via AcoustID, and smart clock-in notifications.

`Python` `JavaScript` `asyncio` `Textual/Rich` `Telegram Bot` `Shell` `Linux` `systemd` `CLI` `Chrome Extension`

EDUCATION

Master's Degree — Data Science & Business Informatics

2022

University of Pisa

Thesis: Italian Emotion Analysis for online reputation monitoring

Bachelor's Degree — Business Administration

2018

University of Pisa
