# Andrea *Bonacci*

DATA ANALYST — AI ENGINEER

## PROFILE

*Data Analyst and AI Engineer with* over 4 years of experience *in data-driven consulting for enterprise clients. End-to-end analytics pipelines, BI dashboards and NLP models — from ETL to production deployment with FastAPI and Docker. Current focus on* AI Engineering*: AI agents, agentic workflows with MCP, tool use and LLM integration in production.* Academic tutor *for university interns and responsible for* technical interviews *to hire Data Scientists and AI Engineers. I also delivered an intensive* 8-hour university course *on AI applied to coding.*

## PROFESSIONAL EXPERIENCE

**LINKALAB S.R.L. · CAGLIARI** — Nov 2021 → present

Internal growth · 4 roles

### Data Analyst & AI Engineer — Oct 2025 → present

AI Engineering focus: AI agents and agentic workflows with MCP, tool use, sub-agents and LLM integration (OpenAI, Anthropic). Claude Code, Windsurf and Gemini CLI in production. Academic tutor for university interns. Technical interviews for hiring Data Scientists and AI Engineers post-acquisition.

AI Agents · MCP · LLM Integration · Tool Use · Claude Code · Academic Tutor · Technical Hiring

### Data Analyst & Data Scientist — Jul 2022 → Oct 2025

End-to-end data pipelines and BI dashboards (Power BI, QuickSight, Tableau, Looker Studio) for enterprise clients. NLP, sentiment analysis, time series. Deployment with FastAPI and Docker on AWS.

Python · SQL · Power BI · QuickSight · Tableau · NLP · FastAPI · Docker · AWS S3/Athena

### Data Scientist — contract — Apr 2022 → Jun 2022

Post-internship hire. First autonomous data analysis and modeling projects for enterprise clients.

### Data Scientist — curricular internship — Nov 2021 → Mar 2022

Master's thesis internship. Development of an Italian Emotion Analysis system for online reputation monitoring.

## AT A GLANCE

**4+** years of professional experience

**12+** open source projects

## DIFFERENTIATORS

**AI ENGINEERING**
Advanced use of LLMs, AI agents and MCP to build intelligent workflows and automate complex tasks.

**UNIVERSITY SPEAKER**
AI applied to coding course, University of Cagliari, April 2026 — 8 hours.

**MENTORING & HIRING**
Academic tutor for university interns. Leading technical interviews for post-acquisition team expansion.

## SKILLS

**AI & LLM**
AI Agents · MCP · Prompt Eng. · OpenAI API · Anthropic API · Tool Use · Sub-agents · Hugging Face · Ollama · LLM Eval

**AGENTIC CODING**
Claude Code · Windsurf · Gemini CLI · OpenCode · Kiro

**DATA SCIENCE**
Python · SQL · NLP · Sentiment Analysis · Pandas · Time Series · Computer Vision

### Speaker — University Course

April 2026

**UNIVERSITY OF CAGLIARI**

Two intensive sessions (**8 hours total**) on *"AI Applied to Coding"*: LLM architecture, advanced prompt engineering, agentic coding with CLI, MCP integration and custom Skills for AI agents. Hands-on workshops on agentic IDEs.

`AI for Coding` `Prompt Engineering` `LLM` `MCP` `University Lecture`

## PROJECTS & OPEN SOURCE

**GITHUB.COM/ANDREABONN · 12 PUBLIC REPOSITORIES**

### AI & Computer Vision

Ongoing

Automatic person anonymization in video using Computer Vision models, multilingual TTS synthesis (Italian/English), and a Chrome extension for AI-powered article and PDF summaries via LLM.

`Python` `Computer Vision` `LLM Integration` `Chrome Extension`

---

### Web Apps & PWA

Ongoing

Progressive web apps for personal finance tracking, health monitoring, and roommate expense splitting — with cloud sync and offline support.

`PWA` `JavaScript` `Cloud Sync`

---

### Developer Tools & CLI

Ongoing

Linux file manager extensions, clipboard image CLI utilities, and automated download organization — tools for daily Unix workflows.

`Python` `Shell` `Linux` `CLI`

## EDUCATION

### Master's Degree — Data Science & Business Informatics

2022

University of Pisa

*Thesis: Italian Emotion Analysis for online reputation monitoring*

---

### Bachelor's Degree — Business Administration

2018

University of Pisa

**BUSINESS INTELLIGENCE**

Power BI · QuickSight · Tableau · Looker Studio

**MLOPS & CLOUD**

Docker · FastAPI · AWS S3 · Athena · Flask · GitHub
